A treatment of Montesquieu's Persian Letters, which argues that the novel is a philosophic critique of despotism in all its forms: domestic, political and religious. It shows that Montesquieu believed that the Enlightenment failed as a philosophy by not recognizing man as an erotic being. The Concluding Volume of the Engines of Light With Cosmonaut Keep and Dark Light, both finalists for science fiction's Hugo Award, Ken MacLeod launched a new interstellar epic with all the engaging characters and ingenious SF inventiveness of his earlier Fall Revolution novels. Now MacLeod delivers the culmination of his epic of a human future crammed with innumerable varieties of intelligent alien life, and in which humans find themselves involved in the politics of aliens as powerful and inscrutable as godsand entangled in their wars. For ten thousand years, Nova Babylonia has been the greatest city of the Second Sphere, an interstellar civilization of human and other beings who have been secretly removed, throughout history, from Earth. Now humans from the far reaches of the Sphere have come to offer immortality—and to urge them to build defenses against the alien invasion they know is coming. As humans and aliens compete and conspire, the wheels of history will alter all the players into shapes new and surprising. The alien invasion will reach New Babylon at last—led by the most alien figure of all. At The Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. Your future as a writer is in your hands. Whether you are a newcomer or an accomplished professional, a novelist, story writer, or a writer of nonfiction, you will find this book a wealth of immediately useful guidance not available anywhere else. As Sol Stein, renowned editor, author, and instructor, explains, "This is not a book of theory. It is a book of useable solutions—how to fix writing that is flawed, how to improve writing that is good, how to create interesting writing in the first place." You will find one of the great unspoken secrets of craftsmanship in Chapter 5, called "Markers: The Key to Swift Characterization." In Chapter 7, Stein reveals for the first time in print the wonderful system for creating instant conflict developed in the Playwrights Group of the Actors Studio, of which he was a founder. In "Secrets of Good Dialogue," the premier teacher of dialogue gives you the instantly useable techniques that not only make verbal exchanges exciting but that move the story forward immediately. You won't need to struggle with flashbacks or background material after you've read Chapter 14, which shows you how to bring background into the foreground. Writers of both fiction and nonfiction will relish the amphetamines for speeding up pace, and the many ways to liposuction flab, as well as how to tap originality and recognize what successful titles have in common. You'll discover literary values that enhance writing, providing depth and resonance. You'll bless the day you read Chapters 32 and 33 and discover why revising by starting at page one can be a serious mistake, and how to revise without growing cold on your manuscript. In the pages of this book, nonfiction writers will find a passport to the new revolution in journalism and a guide to using the techniques of fiction to enhance nonfiction. Fresh, useful, informative, and fun to read and reread, Stein on Writing is a book you will mark up, dog-ear, and cherish. Japanese Erotic Fantasies presents over 200 images, principally from the Edo period but also from the following Meiji era. Many of these works - drawn from international private and museum collections - are reproduced here for the first time. The catalogue is introduced by an essay from Chris Hihlenbeck which examines the history, meaning, function and market concerns of shunga. Ellis Tineos examines the facets of male-male sex in shunga imagery and the morphology of erotic books. Cecilia Segawa Seigle uses poetic and literary traditions to elaborate upon the relationship between shunga and women of the Yoshiwara pleasure quarter, and in a second shorter essay Seigle describes what a visit to the quarter would entail. M argarita Winkel considers the similarities and differences between sexually explicit illustrated books and gésaku literature. This is followed by a fully illustrated catalogue divided into six sections, each of which are prefaced by a brief introduction. Two short pieces on the sex shop Yotsuyama by M argarita Winkel and the genius of the M eiji artist K usabane K yosai by Okawa Shigeru also compose this catalogue section. The additional inclusion of a guide of book and print formats, glossary, exhaustive bibliography and Japanese character artist/title index make Japanese Erotic Fantasies the most in-depth study to date in English on the subject of Ukiyo-e erotica. This is Book 3 of the sizzling gay firemen series, H.art M.ountain Hotshots. "Hot firemen romance for mature audiences."

The work of every school of psychotherapy and every therapist is inevitably structured by a value system and requires codes of ethics and practice. This book addresses the conscious and unconscious aspects of the value system in which therapists are situated. Values and Ethics in the Practice of Psychotherapy and Counselling explores the central issues through the experience of the contributors, each of whom is well known in this field. Each chapter will raise questions for the reader which will stimulate individual thinking about practice or form a basis for discussion and debate for training or graduate groups. The book is firmly rooted in practice. Each chapter deals with a different aspect of the psychotherapist's work beginning with the general underlying principles, continuing through matters of technique and on to contextual issues. Finally the book moves to the outer world, politics and spirituality as ways of connecting inner and outer, social and individual. The arrangement of chapters allows for flexibility and creativity while providing a coherent structure. Values and Ethics in the Practice of Psychotherapy and Counselling is recommended reading for psychotherapists, psychoanalysts and counsellors in training and practice.

Pornography: The force for change that has been written out of the history of world culture. From cave painting to photography to the internet, pornography has always been at the cutting edge in adopting and exploiting new developments in mass communication. And in so doing, it has helped to promote and propel those developments in ways that are rarely acknowledged. Without pornography, the internet would not have grown so quickly. The e-commerce payment systems that are now commonplace would not have been at a more primitive stage security and usability. Without video streaming software developed for pornography sites, CNN would be struggling to deliver news clips. Without advertising from sex sites, Google could not have afforded YouTube. This smart, witty and well-researched history shows how a vast secret trade has bankrolled and shaped mainstream culture and its machines. Sacred Eroticism addresses a neglected chapter in Latin American literature, namely, the influence of Georges Bataille and Pierre Klossowski's atheist mysticism in the Latin American erotic novel of the twentieth century. Combining a Lacanian analytical framework with an (Inter)textualist approach, Juan Carlos Ubiluz reveals how Julio Cortazar, Salvador Elizondo, Mario Vargas Llosa, and Juan Garcia Ponce adopted Bataille and Klossowski's aesthetic and philosophical models as a point of departure to rearticulate the modern subject's buried dimension of the sacred through various innovations on the erotic novel's form. Ubiluz examines the dialectical irruption of these literary experiments into their particular aesthetic, theoretical, and political contexts; showing, for instance, that Cortazar's analysis of the astrology of romance features elaborate illustrations and coverage of such areas as the celestial and historical influences on sex appeal, how to find an ideal astrological match, the planetary profiles for more than ninety famous couples, and the astrological influences that were at play for each of the sun signs during the past century. Sensual paintings and illustrations by D.H. Lawrence punctuate this new gathering of the author's fiction and poetry. Includes rare and early pieces. Lili, a librarian with a bookmobile, arrives in the small California town of Nolan to help start a book club. Across the ocean in an Alsatian chateau, an ancient Book of Cures is stolen and surreptitiously travels to a California coast library, then on to Nolan. Suspicion swirls around the three lonely club members. Unaware of the theft, they secretly pursue their curiosity about classical erotica, while sipping a strange tea infused with herbs grown in a gypsy garden. Mysterious events collide. A crime wave and a murder shake up the town, as the women are entangled deeper and deeper into a baffling puzzle of danger and death. Awarded third place for The Adam Gillon Book Award in Conrad Studies 2009. The book presents a sustained critique of the interlinked (and contradictory) views that the fiction of Joseph Conrad is largely innocent of any interest in or concern with sexuality and the erotic, and that when Conrad does attempt to depict sexual desire or erotic excitement then this results in bad writing. Jeremy Hawthorn argues for a revision of the view that Conrad lacks understanding of and interest in sexuality. He argues that the comprehensiveness of Conrad's vision does not exclude a concern with the sexual and the erotic, and that this concern is not with the sexual and the erotic as separate spheres of human life, but as elements dialectically related to those matters public and political that have always been recognized as central to Conrad's fictional achievement. The book will open Conrad's fiction to readings enriched by the insights of critics and theorists associated with Gender Studies and Post-colonialism. Drawing on theories of lovemaking from ancient Asian and Western cultures, this book provides a new aesthetics of erotic love. How does one define erotic and, more especially, erotic literature? (The origin of eroticism is the Greek erotikos, which means sexual rather than romantic love.) How has the erotic been depicted in classics of world literature? Who are the authors most associated with erotic preoccupations and themes? What are some of the terms and expressions connected with this literature?"*"Erotic Literature: A Connoisseur's Guide sets out to answer these questions. In the process it covers both the "usual" and "unusual suspects." It is an essential source book and guide to erotic literature - the joyfully erotic, ancient and modern - as opposed to the merely pornographic." *"The book is divided into three main sections. The first consists of six chapters on the subject: The Greeks and the Romans; The Far East and Middle East; Courtly Love and Medieval Forms of Love; The Era of Erotic Memoirs (the eighteenth century to our own time); Eroticism in code in all eras; and The Maze of Modern Erotica. Part 2 is an A-to-Z listing of erotic authors, with biographical and critical material on each one. The third part is a glossary of erotic terms." *"This lively and informative book will answer many questions on the nature and unique place of erotica in literature, both in times past and today." -- BOOK JACKET. Title Summary field provided by Blackwell North America, Inc. All Rights ReservedA gripping exploration of the relationship between sex and our society, with a foreword by bestselling author A. J. Jacobs Why do political leaders become entangled in so many sex scandals? How did the U.S. military inadvertently help make San Francisco a mecca of gay culture? And what was the original purpose of vibrators? Find out the answers to all these questions and more as journalist Ross Bencos delves into the complicated relationship between everyday human life— including
religion, politics, and technology—and our sexuality. Drawing on history, psychology, sociology, and more, The Sex Effect combines innovative research and analysis with captivating anecdotes to reveal just how much sex shapes our society—and what it means for us as humans as we continue to struggle with the wide-ranging effects our sexuality has on the world around us.

Human sexuality is a problematic thing. It gets us into trouble, breaks our hearts, involves us in painful compulsive relationships, even transmits deadly diseases. It would surely scare us off, if it were not for its siren call to higher forms of union and moments of bodily bliss. When examined more closely, however, and especially when we turn our gaze inward to see what sexual arousal is doing to our consciousness, we find we are in an altered state—a form of “erotic trance” that reveals dimensions of ourselves, our partner, and possibilities for human life that otherwise would not have been discovered. -- Procreative sex forms the foundation of the nuclear family and the glue that holds society together—what we might call the “horizontal” potential of sex. Tantra, however, is about its “vertical” dimension—about “tuning” our awareness to bring higher, spiritual realities into focus. It all begins by mastering our bodily reflexes. This first volume of Tantra and Erotic Trance deals with the preliminary stages of mastery and the transformations of consciousness that they make possible. The whole project is imagined as a ladder with its feet on the earth and its top leaning into Indra’s heaven. Each rung represents a new level of awareness, a mastery of what just the rung below had appeared to us as a poorly understood gift.

In ten original essays, American Cinema of the 1920s examines the film industry’s continued growth and prosperity while focusing on important themes of the era that witnessed the birth of the star system that supported the meteoric rise and celebrity status of actors, including Charlie Chaplin, Mary Pickford, Joan Crawford, Greta Garbo, and Rudolph Valentino, while black performers (relegated to “race films”) appeared infrequently in mainstream movies. A collection of erotic literature spans the history of the genre and features the writing of Ovid, Boccaccio, St. Jerome, Casanova, Kate Chopin, Walt Whitman, James Baldwin, Angela Carter, Marguerite Duras, and Yukio Mishima, among others. 

Explores the current preoccupation with child molesting and children’s sexuality and the ways that this degree of fascination is itself suspect.

Robbe-Grillet is a visionary who seeks to discover unfamiliar ways of seeing and interpreting. His films, like his novels, challenge the limits of expected narrative structures and question the comfortable assumptions of conventional realism. In the interviews, conducted from 1982 until 1991, Fragola and Smith examine all nine of the films that Robbe-Grillet has created, specifically exploring the cultural milieu to which they are so closely and problematically related.
