DNA and Cell Biology

**Applied Linear Statistical Models**

Written by foreign policy experts, academics and practitioners, this book develops the frameworks and strategies for India’s foreign policy that can be adopted to meet the emerging challenges and non-traditional threats in the new world order. It studies the important aspects of India’s foreign policy in the present unsettled world order and comes up with strategies and policy suggestions. It raises several questions to highlight the future direction of foreign policy and the challenges that India may have to deal with in the coming years. The book covers the domestic dimension of the country’s foreign policy, which is often missed out in policy discussion. It examines the close link between national security and foreign policy, and shows how foreign policy can be leveraged to strengthen the economy and make India a hub of innovation. This book emphasizes soft power strategies to ensure that a strategic approach to soft power projection is adopted. India’s Foreign Policy: Surviving in a Turbulent World is a ready reference on India’s foreign policy that can be used to understand the complexities of the topics covered.

Designed specifically for one-semester intermediate French programs, **SUR LE VIF, International Edition** offers a contextualized review of the fundamentals, adding just enough new material to expand the language skills of French learners without overwhelming them. The textbook is divided into an in-class conversation manual and an out-of-class grammar reference, giving the flexibility to choose among readings, activities, and grammar practice to meet the varied needs of intermediate students. In nine short chapters, **SUR LE VIF** encompasses a full-length intermediate course with its provocative readings, active grammar review, and updated cultural notes. The program also takes into account the importance of audio and visual elements: the “Prélude” (before Chapter 1), two “Interludes” (after Chapters 3 and 6), and “Postlude” (after Chapter 9) contain new songs and follow-up activities. The accompanying video program, featured on the new Premium Website, adds a visual component. By skillfully weaving grammar review into thought-provoking chapter themes, **SUR LE VIF** provides a solid review of first-year French while adding refinements for improved skills in reading, listening, composition, and conversation.
